Work Experience

Freelance UI/UX Designer | *October 2025 - Present*
Self Employed / Remote

- Designed comprehensive UI/UX concepts for a multi-service digital hub, prioritizing accessibility and trust for trade, travel, and community platforms.
- Architected user-centered layouts and intuitive flows to enhance cross-platform usability for both web and mobile interfaces.

Freelance UI/UX Designer | *August 2025 – September 2025*
Self Employed / Contractual

- Designed high-fidelity UI/UX concepts for web and mobile platforms, specializing in automated workflows and data-driven information hierarchies.
- Developed intuitive user flows and structured layouts to enhance usability, resulting in improved efficiency and user experience.

Web Developer (Intern) | *February 2025 - May 2025*
Split Second Software Services Corporation | Malaybalay City, Bukidnon, Philippines

- Developed a full-stack web application for the company platform, implementing front-end designs, back-end logic, and database systems.
- Executed QA testing and survey validation by creating MCQ modules, ensuring software reliability and 100% code integrity via GitHub version control.

Freelance Web Developer | *June 2023*
Self Employed / Commission-based

- Engineered a custom web-based information system, delivering a functional end-to-end solution tailored to specific client management workflows.
- Architected user-friendly dashboards and structured database logic to streamline data handling and improve administrative efficiency.

Technical Projects

- **Maison (E-Commerce Platform):** Developed a scalable, AI-inspired frontend using **React.js, TypeScript,** and **Tailwind CSS**, optimizing UI performance and modern user experiences.

- **Web-Based Appointment and Management System (Capstone):** Engineered a full-stack **Laravel, Bootstrap** and **MySQL** solution to automate patient scheduling, records management, and clinic operations.
- **Interactive Image Editor:** Implemented a real-time web editor with **Laravel**, **Vue.js,** and **Tailwind CSS**, featuring advanced interactive components including lasso, poly-lasso, and brush functionality.
- **Journal of Science:** Created a **CodeIgniter**, **Bootstrap** and **MySQL** system supporting digital publication workflows and multi-level user management.
- **Document Management System:** Built a secure **ASP.NET & MySQL** system with role-based access control (RBAC) and optimized file retrieval workflows.
- **POS & Inventory System:** Built a robust **VB.NET & MySQL** application to optimize sales processing, inventory tracking, and real-time reporting.
- **Farmura (UI/UX Design):** Designed a community-driven digital hub in **Figma**, emphasizing accessibility and user-centered flows for agricultural stakeholders.
- **Wine Price Edge (UI/UX Design):** Developed a UI/UX concept for a comparison platform in **Figma**, focusing on automated workflows and complex data visualization.
- **DM Resto (UI/UX Design):** Modernized a POS interface using **Figma** to enhance operator speed, usability, and overall system efficiency.

Volunteer Experience

DEVCON Philippines – Bukidnon Chapter | *October 2024 - Present*

- **Front-End Developer (BUKFEST 2025):** Developed the official event website using responsive UI principles and integrated a ticketing system to streamline registration for the **Bukidnon Business Summit**.
- **Stage Manager Committee:** Managed event flow and technical support for the **NASA Space Apps Challenge** and **BICTC**, ensuring seamless execution of live presentations and judging sessions.
- **Developer & Designer:** Built rapid-prototypes in high-pressure, collaborative environments during **Techstars Startup Weekend**, focusing on user-centered design and functional MVP development.

Core Skills

- **Languages & Frameworks:** PHP (Laravel, CodeIgniter), ASP.NET, VB.NET, JavaScript (React.js, Next.js, Vue.js), Java, Python, TypeScript.
- **Web & Software Development:** Full-Stack Development, MVC Architecture, RESTful APIs, Responsive Web Design, CI/CD.
- **Databases:** MySQL, PostgreSQL, Firebase, Database Design, Query Optimization.
- **UI/UX & Design Tools:** Figma, Flutter, Wireframing, Prototyping, User-Centered Design.
- **Tools & QA:** Git, GitHub, Unit Testing, System Diagnostics, QA Testing, Debugging, System Deployment.
- **Soft Skills:** Analytical Problem-Solving, Emotional Intelligence, Team Collaboration, Adaptability.

Education

Central Mindanao University | *2021 – 2025*

Bachelor of Science in Information Technology - Major in Software Development
